

SMILE!! IT'S PET DENTAL MONTH

SIGNS OF DENTAL DISEASE

- Bad breath
- Yellow/brown teeth or plaque
- Red or swollen gums
- Difficulty eating or loss of appetite
- Scratching at the mouth

4 OUT OF 5 PETS SUFFER FROM DENTAL DISEASE

Untreated dental issues can cause serious infections in the heart, liver and kidneys, affecting your pet's health and lifespan. The good news? Early-stage dental disease is **completely reversible!**

Hendra Vaccination Promotion – save \$\$ this August and September

A recent fatal case of Hendra virus in our area is a timely reminder of how important vaccination is in protecting both horses and humans.

To support horse owners in getting their horses protected, we're offering:

✓ **\$70 off your horse's second Hendra vaccination** (during August and September)

OR

✓ **FREE second Hendra vaccination** when paired with any procedure (like a dental)

Vaccination remains the most effective way to safeguard your horse and your family. Contact our team to schedule an appointment or ask any questions.

Let's keep our horses healthy and our community safe.
